

# Invitation to join the Japan Flutists Association

This association is made up of people who love the flute. We would like to invite you to join our association.

The association was founded in 1966, with the late Prof. Masao Yoshida as the leading figure, and is composed of both professional and amateur flute players.

Every other year, we organized a convention which is a flute celebration for both professional and amateur flute players. It includes competitions, lectures, master classes, concerts and an exhibition and testing corner by flute makers from all over the world. We have been holding summer schools every year, and interchanges with various countries and flutists. Also, we support flute festivals which are held in various places in Japan.

We issue a journal which has about 50 pages six times a year (February, April, June, August, October, December). It includes information about the flute, projects, concert information, investigations, surveys, etc.
